

This report has not been edited for conformity with  
U.S. Geological Survey editorial standards or  
stratigraphic nomenclature.

EXPLANATION

NON-FEDERAL COAL LAND—Land for which the  
Federal Government does not own the coal rights.

STRIPPING-LIMIT LINE—Boundary for surface mining  
of the coal bed (in this quadrangle, the 200-foot  
overburden isopach). Arrows point toward the area  
suitable for surface mining. Recovery factor of 85  
percent within that area in this quadrangle.

BOUNDARY OF COAL 5 FEET OR MORE THICK—  
Drawn along the outcrop of coal bed and/or the inferred  
contact between burned and unburned coal, and/or the  
5-foot isopach, and/or an insufficient data line. Arrows  
point toward area of coal 5 feet or more thick.

POINT OF MEASUREMENT ON COAL BED

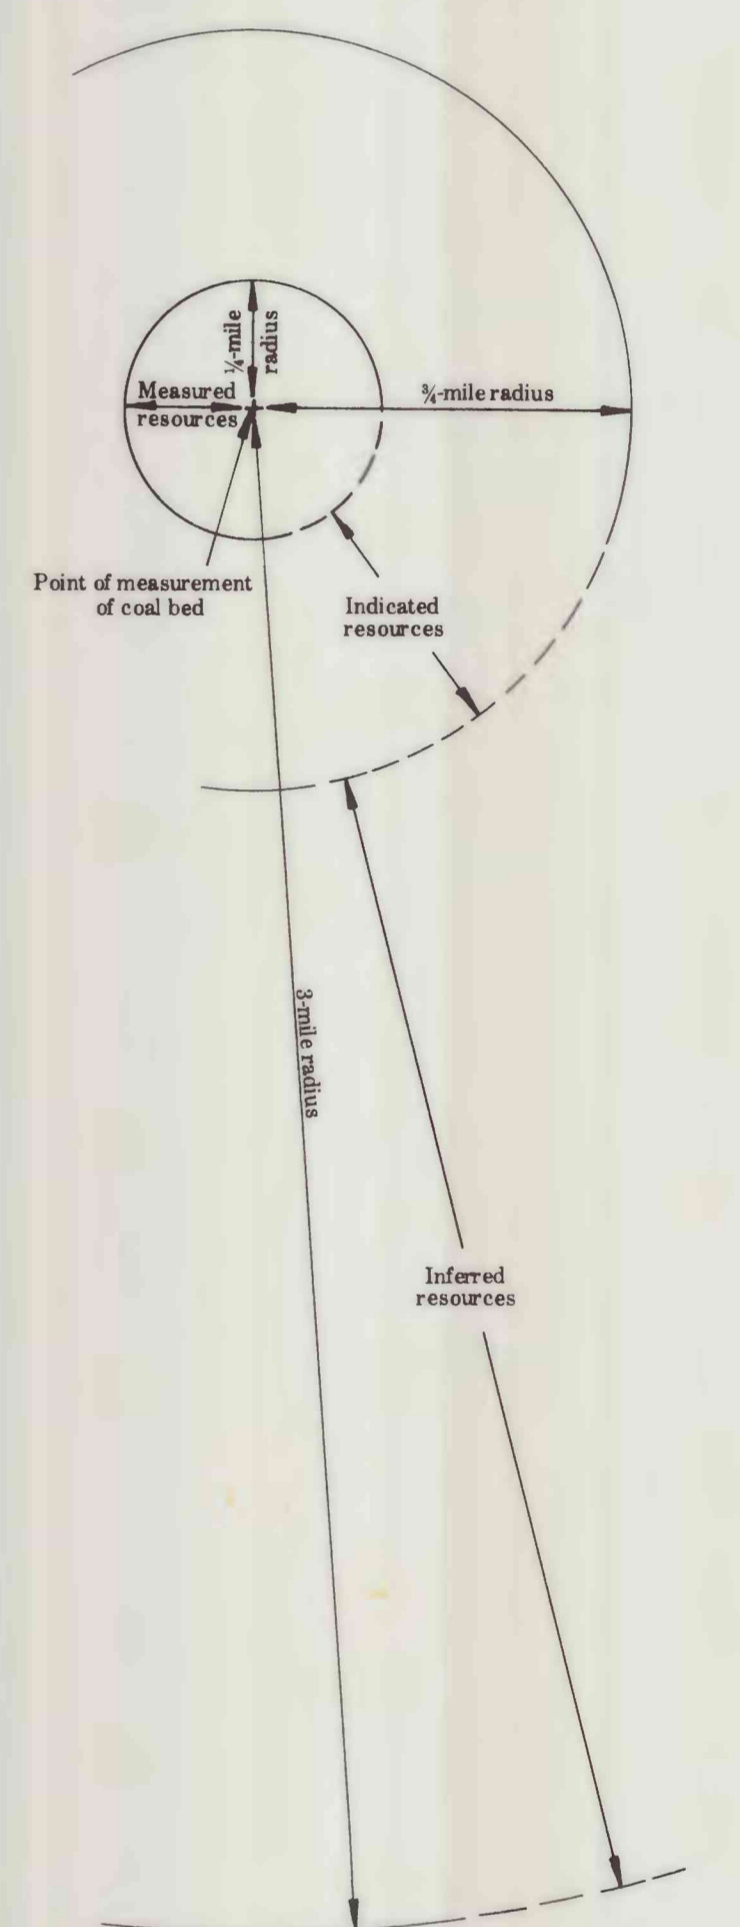

DIAGRAM SHOWING COMPONENT AREAS OF  
IDENTIFIED RESOURCES—Shows arcuate  
boundary lines enclosing areas of measured, indicated,  
and inferred coal resources. Boundaries of areas are  
dashed where projected from an adjacent quadrangle.  
Areas of measured, indicated, or inferred resources  
may be present without their outer boundaries being  
shown.

RB	R(85%)	
1.30	1.11	(Measured resources)
3.74	3.18	(Indicated resources)
0.02	0.02	(Inferred resources)

IDENTIFIED COAL RESOURCES—Showing totals for  
Reserve Base (RB) and Reserves (R), in millions of short  
tons, for each section or part(s) of a section of Federal  
coal land within the stripping-limit line. Dash indicates  
no resources in that category. Reserve Base (RB) X the  
Recovery Factor (85 percent) = Reserves (R).

RB		
—	(Measured resources)	
0.20	(Indicated resources)	
—	(Inferred resources)	

IDENTIFIED COAL RESOURCES—Showing totals for  
Reserve Base (RB), in millions of short tons, for each  
section or part(s) of a section of Federal coal land outside  
the stripping-limit line. Dash indicates no resources in  
that category.

To convert short tons to metric tons, multiply short tons by  
0.9072.

To convert feet to meters, multiply feet by 0.3048.

To convert miles to kilometers, multiply miles by 1.61.

COAL RESOURCE OCCURRENCE MAP OF THE KIRKPATRICK HILL QUADRANGLE,  
CUSTER COUNTY, MONTANA
